## Quality Improvement for Institutions

The ACC Quality Improvement for Institutions program provides **ASSESSMENT, MONITORING, AND EVALUATION TOOLS** that transform clinical data into practical solutions that can make a difference in peoples' lives.

### NATIONAL CARDIOVASCULAR DATA REGISTRY (NCDR)

The ACC's suite of CV data registries help hospitals and private practices measure and improve the quality of care they provide.

### QUALITY CAMPAIGNS

Designed to support efforts with structured quality improvement projects to achieve specific goals, disseminate evidence-based strategies and toolkits, promote best practice sharing, and build nationwide learning networks using the NCDR registries.

### ACC ACCREDITATION SERVICES

Combining registry data, education, and quality initiatives, ACC's accreditations for CV service lines help hospitals reduce variations in care, bridge gaps, and track progress for improved outcomes and enhanced ROI.

### CLINICAL TOOLKITS

Guidelines-based tools and apps, and best practice care resources to address common clinical issues at your facility.

## QUALITY IMPROVEMENT FOR INSTITUTIONS

To access these resources and more, visit [CVQuality.ACC.org](http://CVQuality.ACC.org) today!

# Do You Or a Loved One Need Cardiac Care?

- Heart Attack (Stent, Surgery,) and Chest Pain
- Heart Rhythm Disorder (AFib Ablation, Implantable Cardioverter-Defibrillator)
- Heart Valve Disease (TAVR, Surgery)

For these and other treatments, use the online tool to...

**SEARCH** over 700 hospitals

**COMPARE** their performance

**SELECT** the right hospital

**DON'T DELAY YOUR CARE!**

Remember that hospitals have safety measures to protect patients from virus infection.

# THE HEART OF QUALITY PATIENT CARE

As the global professional organization for the entire cardiovascular care team, the American College of Cardiology (ACC) is committed to supporting patients, caregivers, and health care providers by ensuring the highest quality care is delivered to every patient, every time.

## ACC Accreditation Services™

ACC's Accreditation Services links performance improvement to patient outcomes and promotes consistent processes across the care continuum. We work with hospitals and health systems to build communities of excellence by advancing the highest standards of quality patient care.

## NCDR® (National Cardiovascular Data Registry)

The NCDR is ACC's suite of data registries helping hospitals and health systems measure and improve the quality of cardiovascular care they provide. The NCDR utilizes real-world evidence to improve patient outcomes and achieve quality heart care.

## MedAxiom, an ACC Company

MedAxiom is the premier source for cardiovascular organizational performance solutions. MedAxiom unites the cardiovascular community via cutting-edge education, networking opportunities and best practices to transform cardiovascular care, together.

**FOR CARDIOVASCULAR PROFESSIONALS,** please visit [CVQuality.ACC.org](http://CVQuality.ACC.org) to learn more about ACC's Quality Improvement for Institutions program. To learn more about cardiovascular organizational performance solutions, visit [MedAxiom.com](http://MedAxiom.com).

**FOR PATIENTS AND CAREGIVERS,** please visit [CardioSmart.org](http://CardioSmart.org) to learn more about ACC's provider-directed heart health education and resources.

The following pages list more than 2,000 hospitals and health systems who rely on ACC's NCDR and Accreditation Services. Patients and caregivers can trust hospitals and health systems that participate in the NCDR, receive the ACC's Accreditation seal of approval, and are recognized with the Chest Pain - MI Registry™ Performance Achievement Award and the HeartCARE Center™ Award for delivering the best inpatient care.

## ACC Accreditation Services

### AF Atrial Fibrillation Accreditation

Incorporates evidence-based guidelines and clinical best practices to treat patients with atrial fibrillation.

### CL Cardiac Cath Lab Accreditation

Merges the latest evidence-based science and process improvement methodologies, while addressing pre-procedure, peri-procedure and post-procedure care for patients undergoing treatment in the Cath Lab.

### CP Chest Pain Center Accreditation

Integrates triage treatment protocols, risk stratification, and best practices for the emergency care of acute coronary syndrome patients.

### EP Electrophysiology Accreditation

Links the latest science, process improvement methodologies and patient outcomes across the care continuum for patients undergoing treatment in the EP Lab.

### HF Heart Failure Accreditation

Leverages guideline-directed medical therapies and best practices to ensure greater operational efficiency and a more consistent approach to treatment.

### TV Transcatheter Valve Certification

Utilizes evidence-based science, real-world patient outcomes and expert recommendations to standardize and improve care for patients requiring transcatheter valve therapies.

## NCDR

### A AFib Ablation Registry™

*(Catheter-based atrial fibrillation ablation procedures)* Assesses the prevalence, demographics, acute management and outcomes of patients undergoing atrial fibrillation (AFib) catheter ablation procedures.

### C CathPCI Registry®

*(Diagnostic cardiac catheterization and percutaneous coronary intervention)* Measures adherence to the ACC/AHA clinical practice guideline recommendations, procedure performance standards and appropriate use criteria for coronary revascularization.

### CP Chest Pain - MI Registry™

*(Acute myocardial infarction treatment)* Leverages national evidence-based standards for understanding and improving the quality, safety and outcomes of care provided for heart attack patients.

### I ICD Registry™

*(Implantable cardioverter defibrillator and leads procedures)* Provides a national standard on the implant, revision, replacement or explant of ICD/CRT-D to understand treatment patterns, clinical outcomes, device safety and overall quality of care.

### IM IMPACT Registry®

*(Pediatric and adult congenital treatment procedures)* Assesses the prevalence, demographics, management and outcomes of pediatric and adult congenital heart disease patients who undergo diagnostic catheterizations and catheter-based interventions.

### L LAAO Registry™

*(Left atrial appendage occlusion procedures)* Captures data on left atrial appendage occlusion (LAAO) procedures to assess real-world procedural outcomes, short and long-term safety, and comparative effectiveness.

### P PVI Registry™

*(Lower extremity peripheral vascular interventions, carotid artery revascularization, and endarterectomy procedures)* Measures the prevalence, demographics, management and outcomes of patients undergoing lower extremity peripheral arterial catheter-based interventions.

### T STS/ACC TVT Registry™

*(Transcatheter valve therapy procedures)* Monitors real-world outcomes on transcatheter valve therapies leading to improved patient outcomes, enhanced assessment of treatment options and results, and more informed decision making.

## Honors

**Chest Pain - MI Registry™ Performance Achievement Award**  
Recognizes hospitals participating in Chest Pain - MI Registry who have demonstrated sustained, top level performance in quality of care and adherence to guideline recommendations.

▲ Platinum

▲ Gold

▲ Silver

▲ Bronze

### ◆ HeartCARE Center™

Recognizes hospitals that have demonstrated a commitment to world-class cardiovascular care through comprehensive process improvement, disease and procedure-specific accreditation, professional excellence and community engagement.

Congratulations to the Recipients of the **Chest Pain – MI Registry™ Performance Achievement Award**

**Rewarding Excellence. Driving Success.**

The Chest Pain – MI Registry™ Performance Achievement Award recognizes a hospital's success in sustaining a superior standard of care for patients experiencing a heart attack.

The Registry helps hospitals improve patient outcomes using ACC/AHA clinical guidelines to measure care and provide real-time data to drive decision making.

As the nation's largest and most authoritative quality improvement registry, the Chest Pain – MI Registry is committed to improving positive health outcomes for patients.

View hospitals participating in the registry at [CardioSmart.org/ChestPainMI](http://CardioSmart.org/ChestPainMI)

# Patients' hearts are special!

## CORONAVIRUS AND YOUR HEART

Most of us are worried about the new coronavirus. **DON'T IGNORE HEART SYMPTOMS, ESPECIALLY IF YOU HAVE A HEART CONDITION.**

**GETTING CARE IS CRITICAL** → You'll get better faster. You'll limit damage to your health.

**HEART ATTACK**

- ▶ Chest pain
- ▶ Difficulty breathing
- ▶ Discomfort in chest, arms, back, neck, shoulder or jaw

**STROKE**

- ▶ Numbness, weakness or loss of movement in your face, leg or arm, especially on one side
- ▶ Confusion, trouble speaking or understanding
- ▶ Loss of balance

**CALL 911**  
If you think you are having a **HEART ATTACK** or **STROKE**.  
Heart attacks and strokes don't stop during a pandemic.  
**Hospitals have safety measures to protect you from infection.**

**CALL YOUR DOCTOR** if you have a heart condition and have questions or think you need a health visit.  
**DON'T DELAY** routine care. You may be able to get advice over the telephone or use telehealth for a virtual visit.

For more information about the new coronavirus for people with heart conditions, visit [CardioSmart.org/Coronavirus](https://www.cardiosmart.org/Coronavirus) @CardioSmart

Information provided for educational purposes only. Please talk to your health care professional about your specific health needs. To download or order posters on other topics, visit [CardioSmart.org/Posters](https://www.cardiosmart.org/Posters)

## SHARED DECISION MAKING

### PARTNERS IN CARE

**My Questions to Ask**

**ASK CLINICIAN**

- What is my condition?
- How will it affect me?
- What are the benefits and risks of each treatment?
- What does scientific evidence tell us?

**THINK ABOUT**

- What's important to me?
- What's the right treatment for me?
- What do I need?
- What do I prefer?

**TEAM UP WITH YOUR CLINICIAN**

- ☑ Gather information about your condition
- ☑ Learn about each option for treatment and related risks
- ☑ Think about and factor in what matters to you
- ☑ Make an informed decision with your care team

**DECISION AIDS** are tools to help you decide what treatment is right for you.  
**BENEFITS INCLUDE:**

Increase your knowledge & satisfaction with care

Define clearer goals for treatment

Align health decisions with your values

They are **HELPFUL** when there is more than one treatment, there are big trade-offs or the **PATH FORWARD IS UNCLEAR**

Information provided for educational purposes only. Please consult your health care provider about your specific health needs.

**Find the Shared Decision Making tool that's right for you at [CardioSmart.org/Decisions](https://www.cardiosmart.org/Decisions)**

@CardioSmart Facebook.com/CardioSmart If you would like to download or order additional posters on various topics, visit [CardioSmart.org/Posters](https://www.cardiosmart.org/Posters)

CardioSmart helps **SUPPORT, SHARE** and **CONNECT** patients with their cardiologist and health care team – giving them tools and resources to partner together and personalize care.

Find tools and resources on heart health.

# THANK YOU FOR ALL YOU DO

The American College of Cardiology is deeply grateful for health care workers on the front lines all around the world who are working tirelessly and courageously to help and heal patients.

We thank you for your unflinching effort as you adapt to the environment to meet your patients' needs. You have found new ways to treat and care for your patients with their safety at the forefront of your every decision.

Compassionate care has always been at the heart of what you do. Now, more than ever, we thank you for your unending effort to serve our communities.
