	Project Title	Posr	oonsible Person	
CHF and AMI Readmissions		ACC Patient Navigator Team		
		Project #		
Current State & Goal	Data Target, Trending & Actual Results	Origination Date	Last Update	
Decrease CHF and AMI	Put in YTD graphs	7/2015		
Readmissions for by 4% for 2015		Impleme	Implementation Plans/Status	
		Action Step	Responsible	Target Completion Date
		Schedule follow up appointments within 5 days after discharge for CHF patients	Gordon Vordermark/Laura Bollard/Alyssa Foutz	Ongoing – 12/2015
		Schedule follow up appointments within 7 days after discharge for AMI patients	Gordon Vordermark/Laura Bollard/Alyssa Foutz	Ongoing – 12/2015
		Development of Risk Stratification tool to identify high risk patients for appropriate transition of care	Gordon Vordermark/Abigail Newton/Michelle Cabell	8/2015

		Percentage of CHF patients seen in CHF Clinic within a month after discharge	Gordon Vordermark/Abigail Newton/Alyssa Foutz	Ongoing – 12/2015
Cause-Analysis & Lessons Learned				
	Data Sources	Disposed Fallow His Do	8/20	15
	HBI/GWTG HF/ACTION/Centricity	Planned Follow-Up Date 8/2015		15

Would add other data graphs

Data Analysis

This page shows (1) text, tables and graphs which show the data being collected, the scope, timeframe of collection and benchmark/target comparison and (2) provides explanations of variations/issues observed (defects, waste, non-compliance, etc.).
