

Achieve the
Distinction
that
Matters.

The
HeartCARE
Center™
National
Distinction of
Excellence is
**the ultimate
recognition** for
your hard work
and dedication
to your patients.

HeartCARE
Center™

NATIONAL DISTINCTION
OF EXCELLENCE

The
American
College of
Cardiology,
professional home
for your cardiovascular
team, now honors
those forward-thinking
institutions that
advance the cause
of sustainable quality
improvement with a
prestigious national
distinction
of excellence.

HeartCARE Center
designations are
reviewed and awarded
annually to ensure that all
facilities continue to meet
the parameters and criteria
of a highly-regarded and
sustainable quality
improvement
program.

Tell your
peers, your
patients and your
community that your
commitment to quality
patient care and successful
outcomes is celebrated by
**the organization that has set
the standard for world-class
cardiovascular science and
patient care guidelines
for nearly 70 years.**

Limited Introductory Offer

Take advantage of the early adopter opportunity offered to those facilities that want to fast track their selection of Cardiac Cath Lab Accreditation or Electrophysiology Accreditation as one of the parameters of earning ACC HeartCARE Center recognition.

Recognition that's Attainable and Relevant

Please contact us to learn more about the HeartCARE Center recognition program and any of the CV accreditations available through ACC Accreditation Services.

ACC
Accreditation
Services™

Rewarding Excellence in Your Commitment to Quality Patient Care

Becoming an ACC HeartCARE Center validates the significant steps you take to deliver exceptional care with repeatable success. The essential elements of the designation include:

- Two earned CV Accreditations offered by ACC
- A third earned CV Accreditation offered by ACC or participation in an NCDR Registry
- Minimum of two ACC Member CV champions:
 - One individual with FACC designation
 - One individual with AACC designation
- Annual participation in at least one of the following:
 - An ACC Quality Improvement Clinical Toolkit
 - An ACC Quality Improvement Campaign
 - Public Reporting in an eligible NCDR registry of choice
 - Abstract Submission related to quality of care to an ACC education conference
 - Manuscript submission related to quality of care to a peer-reviewed journal
- Society of Thoracic Surgeons (STS) Public Reporting of surgical outcomes. This criteria point applies only to those facilities that offer cardiothoracic surgical services
