

NCDR RESEARCH

INDUSTRY COLLABORATIVE PATHWAY

Getting started: Be able to clearly quantify and articulate the research question you would like to solve.

Dataset review:

Find out What Each Registry Collects by visiting [ACC.org/WhatEachRegistryCollects](https://acc.org/WhatEachRegistryCollects) and identify the patient or procedure population that intersects with your interest area.

Contact us: Email NCDRRsearch@acc.org to contact the NCDR Research Team.

Agreement: Sign a non-disclosure agreement to facilitate open discussion between you and the NCDR Research Team.

Share & Collaborate:

Your team works directly with the NCDR Research Team to determine how best to address your research question.

Review & Contract: A proposal and analytic plan are drawn up; legal teams agree to and execute the terms.

Deliverables: NCDR Research Study Manager coordinates all project milestones and deliverables.

HIGH QUALITY NCDR DATA = RELIABLE DATA

- Data abstraction with real time quality checks
- All data submissions receive a Data Quality Report
- Registry data undergo an annual audit by an independent third party
