

Let the ACC Help You Navigate QPP

MERIT-BASED INCENTIVE PAYMENT SYSTEM (MIPS) 2019 CHECKLIST

Understand the program.

Review CVQuality.ACC.org/QPP to understand what the reporting requirements are.

Understand the legal agreements.

An electronic data release consent form must be signed at the individual reporting and group reporting level. This is a CMS requirement.

These forms **MUST BE SIGNED BY JAN. 3, 2020.**

Make sure that your practice is submitting data by Nov. 1.

We cannot report for you unless you are currently submitting data to us. Remember, it takes a few weeks of back and forth with a practice before we have the data just right.

Review your provider performance data.

Ask yourself, are the numerator counts (the number of people who had a specific treatment) and the denominator counts (the number of people eligible for the treatment) correct? If something does not look right, contact your Client Account Manager to review the data.

Know your performance measures!

The [measures](#) we report are very similar if not the same as the CMS measures. In general, if you are doing well on the registry measure you can be sure you are going to do well on the CMS measure. CMS give us a LOT of detail on how to calculate the performance measures. Click [here](#) to learn more.

Check your benchmark.

Monitor your Physician Dashboard regularly. We recommend that you be at or above the benchmark, which is indicated by a green bar under performance on your physician dashboard. If you aren't – there is a yellow indicator before RED, then you should meet with your client account manager to see what you can do to improve documentation or use one of the many toolkits on our [QII website](#) to help you improve!

Check tax identification numbers.

If you are reporting multiple tax ID numbers or if you have a change in your EHR and/or TIN, PLEASE let us know. Email your client account manager or outpatientenrollment@acc.org

Check your Account Management Site.

Now for the administrative stuff, please make sure you update your providers on your account management site. This site is different than your Physician Dashboard. Here you can activate new providers that joined your practice and who will report MIPS and deactivate providers who are no longer at your practice. It is extremely important the email addresses are correct for the practice administrator and providers. **Practice ADMIN email must be different than provider emails.*

Review 2018 MIPS data.

Log into your Physician Dashboard.

- Did you review your 2018 performance feedback and QRUR report through your EIDM account?
- Are you reporting GPRO?
- Did you tell your client account manager?
- Did you report through an ACO last year?
- Unfortunately, if you are part of an ACO (excluding Next Generation ACO), we are unable to report your MIPS data to CMS.
- Coordinate with your quality improvement and executive teams to save yourself time.
