ICD Registry™

Your Partner for
Quality Outcomes

Since 2005, the ICD Registry has been the national standard for understanding patient selection, care and outcomes in patients receiving ICD therapy.

The ICD Registry empowers EP physicians in their decision making by providing them with nationally benchmarked data on patient care and outcomes.

Supported by the ICD Registry's data of more than 1.7 million implantations recorded from over 1,800 institutions across the US, you will have the tools to influence and improve standards of care at your institution and ensure optimal use of ICD devices.

The ICD Registry helps you be the champion of high quality care for your ICD patients.

Top 15 Reasons to Participate in the ICD Registry

1. Track your compliance with the CMS National Coverage Determination ✓
2. View real-time data through hospital registry dashboards ✓
3. Retrieve on-demand, custom metric comparison reports ✓
4. Monitor adherence to Appropriate Use Criteria (AUC) and Guideline recommendations with timely benchmark reports ✓
5. Use the ICD Registry to meet Electrophysiology (EP) Accreditation data requirements ✓
6. Improve your *US News & World Report* Best Hospitals score through voluntary public reporting ✓
7. Participate in ACC's National Quality Improvement campaigns ✓
8. Leverage NCDR solutions and tools – built by physicians for physicians ✓
9. Take advantage of EP Registry Suite discounts ✓
10. Access quality improvement resources and toolkits ✓
11. Mine multiple eReports dashboard offerings ✓
12. Benefit from interoperability with electronic health records using the IHE Profile ✓
13. Obtain complimentary registration to the NCDR annual conference ✓
14. Receive dedicated NCDR support from experienced cardiovascular nurses ✓
15. Showcase your commitment to quality through ACC's *Find Your Heart a Home* webpage ✓

The ICD Registry gives you:

Actionable Data

This premier data source and industry standard captures real-time data at the time of implant, revision, replacement or explant of ICD/CRT-D devices, and produces a host of other data resources.

- ✓ **Dashboards with real-time data**
 - Robust national benchmarks
 - Comprehensive quality and systems of care measures
 - At-a-glance assessments
 - Patient level drilldown capabilities
- ✓ **On-demand, custom metric comparison reports**
 - By state
 - By similar facilities
 - By volume or 3-year trend data
- ✓ **Timely benchmark reports comparing metrics such as**
 - Practice patterns
 - Demographics
 - Procedure outcomes
 - AUC and current Guideline recommendations
- ✓ **Multiple eReports dashboard offerings**

Practical Tools

- ✓ **Solutions**
 - Apps
 - Physician-level dashboard
 - Help in fulfilling MOC Part IV requirements
- ✓ **Resources and clinical toolkits for quality improvement**
 - Unlimited online access to proven quality improvement tools, initiatives and more through the ACC Quality Improvement for Institutions program
- ✓ **Interoperability with electronic health records** using the IHE (Integrating the Healthcare Enterprise) Profile
 - NCDR complimentary online data collection tool
 - Ten certified software vendors
 - Ease of data capture

Empowering Support

By participating in the ICD Registry, you get more than just a premier data repository. You also get the full weight of the ACC and the NCDR behind you and these benefits:

- CMS National Coverage Determination compliance tracking
- Opportunity to participate in the voluntary public reporting program and improve your rating for *US News and World Report* Best Hospitals recognition
- Listing on the American College of Cardiology's *Find Your Heart a Home* webpage
- EP Registry Suite advantage: Enrollment discounts for the AFib Ablation Registry™ so you can expand QI activities for your entire EP lab
- One-on-one NCDR support from experienced cardiovascular nurses
- Complimentary registration to the NCDR Annual Conference with over 1,700 attendees

The ICD Registry's data, linked to Medicare claims for determining outcomes after implantation, have resulted in over 75 peer-reviewed scientific papers and studies addressing effectiveness, safety, equity, efficiency of care and, most important, our understanding of device selection and outcomes.

Discover new answers to further empower your treatment decisions so you can continue to lead the charge for high quality patient care at your institution.
