for more information

NCDR
is the most
comprehensive
and trustworthy
cardiovascular
registry in the
industry

Compare hospital-level results
within your network at a glance

Access unique national
benchmarks to understand
quality trends

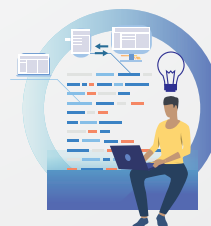

Enhance your own claims
data with insights into clinical
outcomes

Evaluate high-impact metrics such as
readmissions, adverse events, mortality
and appropriate use

Visualize information within the online dashboard
or export data to your own analytic systems

NCDR eReports Corporate allows your health plan to select from hundreds of metrics to drive improvements in specialty care. Data are automatically aggregated and refreshed weekly on the dashboard. Use **NCDR's** unique hospital-level outcomes to design a high-performing network.
