The pharmacist may make a generic substitution for the medication shown in your Daily Schedule. The medication name, dosage strength, shape, color, and size may change as a result of this substitution. Please check dosage strength on your prescription bottle against the dosage strength shown on your daily schedule. Call your healthcare professional's office immediately if you receive medication that is different from what was prescribed or if you have questions about your medication. 1 teaspoon = 5mL, 1 tablespoon = 15mL
