# IMPACT Registry<sup>®</sup>

Your Partner to  
Improve CHD  
Patient Outcomes

With the **IMPACT Registry<sup>®</sup>**, gain access to a multi-institutional data set to support the **development of evidence-based guidelines and review real-world performance benchmarks** to guide quality improvement. clinically experienced support staff.

## THE IMPACT REGISTRY PUTS DATA AT YOUR FINGERTIPS WITH:

- **Quarterly benchmark reports** that compare your institution's performance with a national aggregate.
- **Executive summaries** that offer big-picture reviews or at-a-glance assessments.

And with the IMPACT Registry, gain access to **two modules that track electrophysiology (EP) ablation and transcatheter pulmonary valve replacement** procedures.

**Now, EP physicians have the opportunity to participate and join their colleagues** in working to improve care and treatments for pediatric and adult CHD patients.

No single registry has collected sufficient national quality-focused data on the **MANAGEMENT AND REAL-WORLD OUTCOMES OF PEDIATRIC AND ADULT CONGENITAL HEART DISEASE (CHD) PATIENTS** who undergo diagnostic and interventional catheterizations — until now.
